

Little & Co.

1902

SCALE.—We have a paper from the Department of Agriculture New York, certifying that our nurseries were examined on the 1st, 1901, and found free from San Jose Scale and all other contagiouses, etc.

Rochester Commercial Nurseries.

ESTABLISHED 1830.

LITTLE & CO'S

SEMI-ANNUAL

PRICE LIST

SPRING 1902.

TERMS AND CONDITIONS OF SALE.

The prices quoted in this list are expected to apply only where the specified quantities are taken, except as follows, strictly: *When the order amounts to \$10 or over, five hundred will be supplied at thousand rate; fifty at the hundred rate, and six at the dozen rate.*

PACKING.—The prices quoted in this list do not include the cost of packing. In lots of 100 and up, the cost of packing amounts to about one and a quarter cents per tree for fruit trees of ordinary size. In small lots the cost of packing is about thirty five cents per dozen. Large ornamental trees, of course, cost more, and shrubs, roses, etc., much less.

TRANSPORTATION.—In furnishing trees, etc., on the terms of this Price List, we cannot be responsible for the accidents or delays of transportation. All articles, after leaving the nursery in good condition, are entirely at the risk of the purchaser.

GUARANTY.—We honestly believe every tree which we send out to be genuine and true to label; and we are willing, and hold ourselves ready in every instance where a variety does not prove to be the correct one, to refund the purchase money or replace the trees, free of charge to our customer; but beyond this we do not hold ourselves liable for constructive damages by reason of errors.

OUR OFFICE, Greenhouses and Nurseries are situated at the corner of Culver and Clifford streets, about three miles from the center of the city. The Plymouth and Parsells avenue electric ear line, going east from center of city, comes within ten minutes walk of our office.

TERMS CASH, except by special agreement. On account of the perishable nature of the goods, *we decline to forward any orders C. O. D.*, unless accompanied by a remittance sufficient to secure us from possible loss.

Correspondence is invited from all those who are interested in purchasing or planting trees, either in *large or small* quantities.

WORLEII, new, 6 to 8 feet.....	7 00	40 00	
" " " 8 to 10 feet.....	8 00		

NOTE—One of the finest trees of recent introduction. A variety of the Sycamore Maple. The young foliage is a bright orange yellow. A fine companion tree for Schwedler's Maple.

SCHWEDLER'S, fine, new, purple, 7 to 8 feet...	8 00	50 00
" " " " 8 to 10 feet..	10 00	
" " " " 12 to 15 feet, fine specimens.....	15 00	

NOTE—This is one of the finest acquisitions of late years. It should be everywhere introduced. The young foliage is as dark a purple as that of the best of the Purple Beeches.

WIER'S CUT LEAF, 6 to 8 feet, 1 year buds, very fine.....	3 00	20 00
" " " 8 to 10 feet.....	4 00	
" " " 20 to 25 ft., fine specimens, 3½ to 4 inch caliper.....	30 00	

	Per doz.	Per 100	1,000
MAPLE—JAPANESE (<i>Acer Polymorphum</i>).			
Grafted Sorts.—ATROPURPUREUM, ATROPURPUREUM DISSECTUM, SANGUINEUM, good specimens, 2 to 2½ feet high.....	\$12 00	\$75 00	
NOTE—We would call special attention to our stock of Japanese Maples.			
MULBERRY—WEEPING, new	6 00		
WHITE AND RUSSIAN, 5 to 6 feet.....	3 00	15 00	
" " 6 to 7 feet.....	4 00	20 00	
OAK—AMERICAN WHITE, 3 to 4 feet	5 00	25 00	
BLACK (<i>Q. Tindoria</i>), 4 to 6 feet.....	5 00	25 00	
DWARF (CHINGUAPIN), 4 to 5 feet, bushy	6 00		
ENGLISH (<i>Robur</i>), 5 to 6 feet.....	5 00	25 00	
" 6 to 7 feet	6 00	30 00	
MACROCARPA, 6 to 7 feet	6 00	30 00	
" 5 to 6 feet.....	5 00	25 00	
" 4 to 5 feet.....	4 00	20 00	
NOTE— <i>Quercus Macrocarpa</i> , the Burr Oak, should be more extensively planted. The leaves are the largest of any of the oak family and very handsomely cut or lobed. For an oak it is a rapid grower. A tree of this variety, which was planted twenty years ago, is now forty-five feet high, thirty feet in diameter and foliated to the ground. When planted this tree was a mere whip.			
PALUSTRIS, 7 to 8 feet	9 00	50 00	
" 6 to 7 feet	7 00	40 00	
" 5 to 6 feet	6 00	30 00	
" 4 to 5 feet	5 00	25 00	
" 3 to 4 feet, stocky.....	4 00	20 00	
RUBRA, 5 to 6 feet.....	6 00	30 00	
" 4 to 5 feet	5 00	25 00	
SCARLET, 4 to 5 feet.....	5 00	25 00	
SWAMP WHITE (Bi-color), 3 to 4 feet	5 00		
NOTE—We would call special attention to our collection of Oaks. They are fine and have all been transplanted.			
PLATANUS ORIENTALIS, 8 to 10 feet	6 00	30 00	
" 10 to 12 feet.....	7 00	35 00	
NOTE—The Oriental Plane is a valuable street tree, especially for smoky cities. It seems to thrive on bad air and paved streets, where almost any other tree would drag out a sickly existence at best. After many unsuccessful experiments with other varieties the Thames Embankment in London has been planted with this tree and the result is entirely satisfactory. Trinity Churchyard in New York City is another place where it does well. It is a much handsomer tree than its American cousin, the Occidental Plane or Sycamore. Its growth is as rapid as a Silver Maple.			
POPLAR LOMBARDY, 8 to 10 feet	2 00	12 00	
" 10 to 12 feet	4 00		
" 12 to 15 feet.....	5 00		
CAROLINA, 6 to 8 feet.....	1 50	9 00	
" 8 to 10 feet.....	2 50	12 00	\$100 00
" 10 to 12 feet	3 00	15 00	
" 15 to 20 feet.....	10 00		
NOTE—Our stock of Carolina Poplars is unusually fine this year. It is the most rapid growing tree in the temperate zone and is very valuable for planting where quick growth is desired.			
PRUNUS PISSARDI—4 to 5 feet	3 00	15 00	
5 to 6 feet.....	4 00	20 00	
SALISBURIA —(GINGKO) 6 to 7 feet	5 00	25 00	
" 7 to 8 feet.....	6 00	30 00	
NOTE—Handsome stock.			
SOPHORA—JAPANESE WEEPING	\$2 00 each.		
SUMACH—CUT LEAF, 2 to 3 feet	3 00		
STAG HORN (<i>Rhus Typhina</i>), 3 to 4 feet.....	4 00	20 00	
SWEET GUM—(LIQUIDAMBAR), 4 to 5 feet	5 00		
NOTE—The most brilliantly colored of all trees in autumn.			

	Per doz.	Per 100	1,000
THORN—DOUBLE WHITE, PINK AND SCARLET, 3 to 4 ft.	\$4 00		
“ “ “ “ 4 to 5 ft.	5 00		
TULIP TREE—8 to 10 feet.....	6 00		
“ 6 to 8 feet, fine.....	5 00	\$25 00	
“ 5 to 6 feet.....	4 00	20 00	
WALNUT—(See page 3.)			
WILLOW—KILMARNOCK, 2 year heads, fine.....	2 50	10 00	
“ LAURIFOLIA (<i>Lucida</i>), 5 to 6 feet.....	3 00		
NOTE—One of the very best of the Willow family. Its foliage is very handsome, shining as brightly as the leaves of the California Privet. It is iron-clad as regards hardiness, even standing the winters of Northern Wisconsin.			
NEW AMERICAN and ROSEMARY, grafted.....	3 00	15 00	
COMMON WEEPING (<i>Babylonica</i>), 6 to 9 feet..	3 00	15 00	
“ 9 to 12 feet.....	4 00		
“ extra size, fine specimens, 18 to 20 ft., \$3 00 each.			
VIRGILIA LUTEA—YELLOW WOOD, 4 to 5 ft., fine plants.	8 00		
“ 3 to 4 feet.....	6 00		
NOTE—A most beautiful tree. The flowers, which are white and very fragrant, are borne in clusters that will average fifteen inches in length. We have often measured clusters that were two feet long.			

EVERGREENS.

ARBOR VITÆ—AMERICAN, hedge plants, 12 to 18 inches	1 00	5 00	\$10 00
“ “ “ 18 to 24 inches	1 25	6 00	50 00

Other large-flowering sorts, LAWSONIANA, HENRYI, RAMONA, 2 year and 1 year extra, very good.....	4 00	20 00	180 00
NOTE: The large-flowering Clematis quoted above are very fine. They are all field grown plants.			
Young plants, 2½ inch pots, ready for immediate shipment—HENRYI, RAMO- NA, LAWSONIANA, BARON VELLARD. DUCHESS OF EDINBURGH.....		7 00	60 00
JACKMANNI, MME. EDOUARD ANDRE, ready for shipment April 15.....		7 00	60 00
NOTE: The young Clematis offered above are very fine, and if planted in good ground this summer will make fine stock for retailing next season. Of those we planted last year, ourselves, we did not lose five per cent.			

HEDGE PLANTS, ETC.

ARBOR VITÆ	} Different sizes—see pages 7 and 8.
NORWAY SPRUCE	
CAROLINA POPLAR —6 to 8 feet.....	9 00
NOTE: We know of no tree that is so well adapted for making a quick screen. It is nothing unusual for a Carolina Poplar to grow ten feet in a single season. They should be planted about 18 inches apart and then cut to about a foot from the ground. Every few years they should be cut back almost as far. In a month they will regain their old height.	

	Per doz.	Per 100	1000
ROSA RUBOSA —Makes a fine hedge with very little care. The blossoms are single in shades of red, pink and white and are followed by orange and scarlet hips that are very ornamental. The foliage is dark green, glossy and, best of all, "BUG PROOF." Strong plants two feet high on own roots	\$ 2 00	\$10 00	
PRIVET —CALIFORNIA. (See page 9.)			
BERBERRY —Different Sizes. (See page 8.)			

MISCELLANEOUS.
